

EMUC Symposium on Genitourinary Pathology and Molecular Diagnostics (ESUP)

ESUP

Thursday 25
November
13:30 - 16:30

Location MC2

Chairs M. Colecchia, Milan (IT)
A. Lopez-Beltran, Lisbon (PT)
K. Junker, Homburg (DE)
H. Van Poppel, Leuven (BE)

13:30 - 13:35	Introduction. Where we are now and where we will go H. Van Poppel, Leuven (BE)
13:35 - 14:00	Towards a new WHO classification of genitourinary tumors, with emphasis on kidney cancer G.P. Paner, Chicago (US)
14:00 - 14:25	Bladder neoplasms: Will a morphological classification become obsolete? A. Lopez-Beltran, Lisbon (PT)
14:25 - 14:50	Prostate cancer grading: Will "Gleason" survive? A. Cimadamore, Ancona (IT)
14:50 - 15:15	TNM staging towards a personalized approach: What will the future be like? A. Cimadamore, Ancona (IT)
15:15 - 15:40	Individualised treatments of genitourinary tumours: Is the future brighter with molecular evaluations? K. Junker, Homburg (DE)
15:40 - 16:05	From the clinical point of view: Still a role for genitourinary pathologists in the guidelines? G.P. Paner, Chicago (US)
16:05 - 16:30	Conclusions: What else to expect to see in the next five years M. Colecchia, Milan (IT)
