

14-17 November 2019, Vienna, Austria

11th European Multidisciplinary Congress on Urological Cancers

**EMUC19**

Implementing multidisciplinary  
strategies in genito-urinary cancers

In conjunction with the:

- 8th Meeting of the EAU Section of Urological Imaging (ESUI)
- European School of Urology (ESU)
- EMUC Symposium on Genitourinary Pathology and Molecular Diagnostics (ESUP)

**ESTRO**

## Meeting programmes 14 November 2019

Please note that for the below meetings additional registration on top of EMUC registration is needed

### **8<sup>th</sup> Meeting of the EAU Section of Urological Imaging (ESUI)**

#### **Less is more: What's really needed in imaging**

Place            Vienna (AT)  
 Date             14 November 2019, 08.30 – 17.00  
 Chair            G. Salomon, Hamburg (DE)

08:30 - 08:35    Welcome and introduction  
 G. Salomon, Hamburg (DE)

**08:35 - 10:05    The MRI corner**  
 Moderators: G. Salomon, Hamburg (DE), T. Loch, Flensburg (DE), A. Villers, Lille (FR)

08:35 - 08:50    MRI first: Always necessary before initial biopsy?  
 O. Rouvière, Lyon (FR)

08:50 - 09:05    How many targeted biopsies should be taken in and out of the ROI?  
 L. Budäus, Hamburg (DE)

09:05 - 09:20    The MRI informed focal saturation biopsy  
 G. Giannarini, Udine (IT)

09:20 - 09:35    Evolution of prostate MRI: from multiparametric standard to less-is-better and different better strategies  
 J.J. Futterer, Nijmegen (NL)

09:35 - 09:50    Detection of Extraprostatic Extension of Cancer on MRI: Feasible and safe?  
 A. Villers, Lille (FR)

09:50 - 10:05    Questions and answers

10:05 - 10:35    Coffee break and poster viewing

**10:35 - 11:50    The ultrasound corner**  
 Moderators: P. Martino, Bari (IT), M. Mischi, Eindhoven (NL), G. Salomon, Hamburg (DE)

10:35 - 10:50    An alternative to mpMRI – the mpUS  
 To be confirmed

10:50 - 11:05    How to manage PIRADS III lesions? Can sophisticated ultrasound help?  
 V. Scattoni, Milan (IT)

11:05 - 11:12    The Anna C-TRUS: 6 biopsies are enough. How I do it!  
 T. Loch, Flensburg (DE)

11:12 - 11:19    Micro-ultrasound: How I do it  
 To be confirmed

11:19 - 11:34    Shrunked scanners: Do you get what you pay for?  
 K.F. Stock, Munich (DE)

11:34 - 11:50    Questions and answers

**11:50 - 12:40    The PSMA PET corner**  
 Moderators: M. Ritter, Bonn (DE)

- 11:50 - 12:05 Does it always has to be PSMA-PET? Suggestions towards a rationale use  
T. Maurer, Hamburg (DE)
- 12:05 - 12:20 Which tracer makes the race?  
To be confirmed
- 12:20 - 12:27 Radioguided surgery. How I do it  
T. Maurer, Hamburg (DE)
- 12:27 - 12:40 Questions and answers
- 12:40 - 13:40 Lunch and poster viewing
- 13:40 - 14:40 Monitor the disease  
Moderators: F. Sanguedolce, Barcelona (ES), G. Giannarini, Udine (IT)
- 13:40 - 13:55 Imaging based follow up after surgery for RCC – is less more?  
U. Capitanio, Milan (IT)
- 13:55 - 14:10 Do not do focal therapy without a clear strategy on follow up  
C. Moore, London (GB)
- 14:10 - 14:25 Which imaging in oligometastatic PCA for staging & monitoring  
J. Walz, Marseille (FR)
- 14:25 - 14:40 Questions and answers
- 14:40 - 15:10 Best abstract awards**  
Moderators: G. Salomon, Hamburg (DE), T. Loch, Flensburg (DE)
- 14:40 - 14:50 Third prize
- 14:50 - 15:00 Second prize
- 15:00 - 15:10 First prize
- 15:10 - 16:25 Kidney & bladder corner**  
Moderators: M.C. Kriegmair, Mannheim (DE), J. Walz, Marseille (FR)
- 15:10 - 15:25 Acute renal pain: US, CT, or MRI: The right choice!  
V. Scattoni, Milan (IT)
- 15:25 - 15:40 Small renal masses: a diagnostic challenge to prevent overtreatment  
M. Ritter, Bonn (DE)
- 15:40 - 15:47 Biopsy of kidney masses: How do I " or "when and how I do it"  
P. Martino, Bari (IT)
- 15:47 - 16:02 <sup>89</sup>Zr-girentuximab PET /CT imaging in metastatic renal cell carcinoma  
To be confirmed
- 16:02 - 16:17 No more 5-aminolaevulinic acid? The intrinsic fluorescence  
M.C. Kriegmair, Mannheim (DE)
- 16:17 - 16:25 Questions and answers
- 16:25 - 16:55 Future corner**  
Moderators: H. Wijkstra, Amsterdam (NL), G. Salomon, Hamburg (DE)
- 16:25 - 16:40 Ultrasound localisation microscopy  
M. Mischi, Eindhoven (NL)
- 16:40 - 16:55 Blessing or curse: Machine learning in MRI reading  
To be confirmed
- 16:55 - 17:00 Closing remarks  
G. Salomon, Hamburg (DE)

## **Current applications and future perspectives of liquid biopsies in Uro-Oncology**

Place            Vienna (AT)  
Date             14 November 2019, 13.30 – 16.30  
Chairs          Rodolfo Montironi, Antonio Lopez-Beltran, Kerstin Junker and Hein Van Poppel.

- 13.30 – 13.35 Introduction**  
Urologist - Hein Van Poppel, Leuven (BE)
- 13.35 – 14.00 Current applications of liquid biopsies: what we need to know before starting using them?**  
Clinical pathologist - Michelangelo Fiorentino (IT)
- 14.00 – 14.25 Molecular characterization and diagnostic criteria of kidney cancer with emphasis on liquid biopsies**  
Urological researcher – Kerstin Junker (DE)
- 14.25 – 14.50 An evaluation of current prostate cancer diagnostic approaches with emphasis on liquid biopsies**  
Oncologist - Francesco Massari (IT)
- 14.50 – 15.15 Liquid biopsies and bladder cancer**  
Pathologist - Thomas Gevaert (BE)
- 15.15 – 15.40 Current bladder cancer biomarkers with emphasis on urine biomarkers**  
Pathologist - Antonio Lopez-Beltran (ES/PT)
- 15.40 – 16.05 Future perspectives of liquid biopsies in Uro-Oncology**  
Urological researcher – Sabine Riethdorf (DE)
- 16.05 – 16.30 Discussion and conclusions**  
Pathologist – Rodolfo Montironi (Italy)

**Uropathology Course on “Joint histological evaluation of the specimens by the uropathologist and the clinician: Together we can do it better.**

## **Morphologic and molecular classification of bladder cancer**

Place	Vienna (AT)
Date	14 November 2019, 16.45 – 17.45
Chairs/presenters	Rodolfo Montironi (IT), Antonio Lopez-Beltran (ES/PT), and Dilek Ertoy (TR)

### **Aims**

The joint histological evaluation of specimens of bladder and prostate cancer by the clinician and uropathologist can produce much more clinical and prognostic information than that contained in the final histopathology report. Both the clinician and uropathologist can benefit from such an approach. The former will more clearly understand and explain the preoperative features of the cancer, the intraoperative findings, and postoperative follow-up of the patient. The experience acquired would help improve him/her diagnostic and prognostication capabilities and surgical skill. The uropathologist will learn the great clinical significance of his/her daily routine. The course will be based on the projection and discussion of virtual slides.

**ESU course on 'Oligometastases in Genito urinary cancers' at the occasion of the 11th European Multidisciplinary Meeting on Urological Cancers (EMUC)**

Place            Vienna (AT)  
Date             14 November 2019, 09.00 – 12.00  
Chair            H. Van Der Poel, Amsterdam (NL)

**09.00 – 09.05    European School of Urology: A unique possibility for urological education**  
H. Van Der Poel, Amsterdam (NL)

**09.05 – 09.10    Introduction and aims**

**09.10 – 09.40    Definitions and biology of oligometastases**  
H. Van Der Poel, Amsterdam (NL)

**09.40 – 10.10    Role of imaging modalities**  
T. Maurer, Hamburg (DE)

10.10 – 10.30    Break

**10.30 – 11.00    Radiotherapeutic management of oligometastases in prostate cancer**  
G. De Meerleer, Leuven (BE)

**11.00 – 11.30    Salvage surgical treatment of nodal metastases**  
T. Maurer, Hamburg (DE)

**11.30 – 11.55    Role of systemic therapy in oligometastasized disease**  
H. Van Der Poel, Amsterdam (NL)

**11.55 – 12.00    Take home messages and close**

**ESU course on 'Immunotherapy for urological tumours' at the occasion of the 11th European Multidisciplinary Meeting on Urological Cancers (EMUC)**

Place Vienna (AT)  
Date 14 November 2019, 14.00-17.00  
Chair J. Van Moorselaar, Amsterdam (NL)

- 14.00 – 14.05 European School of Urology: A unique possibility for urological education**  
J. Van Moorselaar, Amsterdam (NL)
- 14.05 – 14.25 Update and current knowledge of immunotherapy in prostate cancer**  
L. Albiges, Villejuif (FR)
- 14.25 – 14.55 Immunotherapy for urological tumours: Clinical cases in prostate cancer**  
L. Albiges, Villejuif (FR)
- 14.55 – 15.15 Break
- 15.15 – 15.35 Update and current knowledge of immunotherapy in renal cancer**  
J. Van Moorselaar, Amsterdam (NL)
- 15.35 – 16.05 Immunotherapy for urological tumours: Clinical cases in renal cancer**  
M-O. Grimm, Jena (DE)
- 16.05 – 16.25 Update and current knowledge of immunotherapy in bladder cancer**  
T. Powles, London (GB)
- 16.25 – 16.55 Immunotherapy for urological tumours: Clinical cases in bladder cancer**  
T. Powles, London (GB)
- 16.55 – 17.00 Closing remarks**

## **YAU Autumn Meeting**

Place Vienna (AT)  
Date 14 November 2019, 13.00-18.00  
Chairs M. Sedelaar, Nijmegen (NL), M.S. Silay, Istanbul (TR)

**13:00-13:10 YAU Overview & Welcome**  
M.S. Silay

**13:10-14:10 YAU Working parties reports**  
Renal Cancer; Umberto Capitanio  
Prostate Cancer; Guillaume Ploussard  
Urothelial Cancer; Evangelos Xylinas  
Endourology-Stone Disease; Panagiotis Kallidonis  
Pediatrics; Bernhard Haid  
Men's Health; Giorgio Russo  
Functional Urology; Tom Marcelissen  
ERUS-Robotic; Geert De Naeyer  
Urotechnology: Domenico Veneziano  
Reconstructive: Luis Kluth

**14:10-14:30 Academy & fun- EAU Exchange programmes for young academics.**

**14:10-14:20 EAU & AUA Exchange**  
Achillis Ploumidis

**14:20-14:30 EAU & JUA Exchange**  
Marco Moschini

**14:30-15:00 Interactive discussion with YAU members**

**15:00-15:15 Coffee break**

**15:00-18:00 Brainstorming & creation of new projects**
